well. Dear Sister.

THE SAILING THIP.

More Salting Ships Than Steamers Be-

ing Built in Scotland. It is frequently said and written that the steamship has driven the sailing vessel off the sea, a statement so far devoid of truth that nearly half the world's freights are carried in sailing vessels and a full half of the tonnage of ships built the last year is to be propelled by the wind. This may seem a surprising fact, but it is only necessary to turn up Loyds' list to prove it. That it is not more generally recogerence to passenger vessels and the carrying of mails. The larger fleet of sailing vessels is made up of small craft and coastwise traders, such, for example, as the schooners that concity of maritime commercial imporof the tonnage coming into that port the highest prices in all markets the The New Year Harper's is notable is made up by this fleet, of which a sail is rarely seen outside of the tributary waters of the bay. In deep wa ment of The American Tourist Asso- ter commerce, except between the ports which are connected by regular Manager, 1423 Marquette Building, lines, the preponderance of sail tonnage is even greater, says the Phila-Itineraries, Maps and Tickets can be delphia Times. In the Lloyds' report ships, either, but great four-masted, skysailyard steel ships of 3,000 tons measurement. In the matter of shipbuilding a trifle over one-third of that built in America were sailing vessels. substance stopped the grinder. When | five masts, carrying up to 4,000 tons removed it proved to be a beautiful dead weight. But in Scotland on the solitaire diamond ring. It was sent to | Clyde there are building more sailing Baltimore for inspection, and came ships than steam vessels. This is, in fact, a recrudescence of sailing-ship building, and the reason is apparent when we consider the sailing ship's economy, her vast carrying capacity and the fact that her very slowness as compared with the steamer is actually no mean advantage in a great number of instances, as, for example, when goods are bought at a low mar- of Dodd's Kidney Pills. pitious channels open to it.

Sometimes historians tell us that it ! little girl to a playmate. "So did we." | was only Dutchmen and not Englishwho bought the red man's land instead of stealing it. Such statements have been made in New York, but if we pass on to Philadelphia we hear that it was only Quakers who relief which he indicates in his letter. were thus scrupulous, and when we arrive in Baltimore we learn that it was only Roman Catholies. In point of fact, it was the invariable custom of European settlers on this Atlantic coast to purchase the lands on which ! they settled and the transaction was usually recorded in a deed to which i the Sagamores affixed their marks. Nor was the affair such a mockery as it may at first thought seem to us, eted, steel hatchets and grindstones. and ammunition, while he was apt to lustrated Bits. reserve sundry rights of catching game and fish. A struggle was inevitable when the white man's agriculture encroached upon and exhausted at once. Go to your druggist today the Indian's hunting ground; but and get a sample bottle free. Sold in other circumstances usually brought it on long before that point was reached. The age of iron superseded the stone age in America by the same law of

General Canby's Assassination.

not do it in a spirit of robbery.

General Canby was assassinated by the Indians during what is officially known as the Modoc war in 1873. The government had issued an order for the removal of the Modoc Indians from their lands in Oregon to a new reservation, but they refused to go. Troops were sent to enforce the order, and the Indians resisted, carrying on the war with much vigor during the winter. In the spring they retreated to an almost inaccessible region called the "lava beds," where they were surrounded but not subdued. Finally, they demanded a conference, and General Canby and several members of the Peace Commission met the Indian chiefs. In the midst of the deliberations the Indians suddenly turned on the white men, and shot to death General Canby and Dr. Thomas, and wounded Mr. Meacham. They were captured in June, 1873, and their leader, Captain Jack, and other chiefs were tried and convicted and executed in

# Elections by Revolution.

The differing concepts of government in Spanish and American republies may be inferred from the manner in which the chief executives give their titles to official documents. With us the executive simply appends "president" to his signature. In Venezuela, the president's decrees begin: "I, Cipriano Castro, general in chief of the armies of Venezuela and supreme chief of the republic." Imagine the effect here should Mr. McKinley append such a title to his official documents. And yet he is as much commander-in-chief of the army and navy of this country as Castro is of his. It illustrates the subserviency there of civil government to the army, and helps explain why elections are chiefly by revolution .-
